GOVERNANCE READINESS FOR FOUNDER-LED BUSINESSES

Ready for capital, contracts and certification.

Zytrion Infrastructure Group, Inc. is a woman-owned Georgia corporation. Lenders, procurement offices and corporate buyers decide on what a business can document. Zytrion measures that readiness, shows the owner what to correct first, and provides the tools to correct it.

CORE COMPETENCIES

GRID Diagnostic
A 40-statement governance readiness diagnostic. Each business receives a score, one of four tiers and its weakest pillar.

Enterprise in Motion Manual
The Zytrion Governance Operating System: the Three Flows and the D.E.D. Method (Decide, Execute, Document).

Tier Kits
Guided governance document sets matched to each GRID tier, built into records an institution can review.

GRID Readiness Workshops
Facilitated cohorts for chambers, business councils, incubators and supplier programs, with follow-up.

Zytrion Standard Certification
Evidence-reviewed certification against one published rubric, verifiable at getzytrion.com/verify.

Supplier Readiness
Preparation for supplier onboarding, security review and audit, with a de-identified cohort summary for the sponsor.

THE FIVE PILLARS OF THE ZYTRION STANDARD

Authority Clarity | Responsibility Ownership | Money Containment | Evidence Integrity | Governance Discipline

HOW AN ENGAGEMENT RUNS

STEP 1
Measure
Every participant takes the GRID and learns the weakest pillar.

STEP 2
Correct
Workshop, Manual and tier kit, with one record committed to fix.

STEP 3
Re-measure
A GRID retake at day 180 shows how each business moved.

STEP 4
Certify
Businesses that reach the top tier may apply for certification.

DIFFERENTIATORS

- **Scores cannot be bought.** A purchase never changes a score, a tier or the order of findings.
- **Certification is earned through evidence,** reviewed by independent reviewers who disclose conflicts.
- **Built for the reader of the file.** Every pillar reflects what lenders, buyers and agencies check.
- **Results are private.** Partners receive only de-identified summaries, with each participant's consent.

FOUNDER EXPERIENCE

LaVonne L. Norrils brings thirty years of technology process governance, beginning at MCI WorldCom in 1996. Her work spans national wireless and fiber network buildouts, a banking procure-to-pay center of excellence and enterprise SAP transformations, with programs for AT&T, Ericsson, Cricket Wireless, SunTrust Bank, Amazon and Flowers Foods.
